Topic: Ordinal Numbers

Children in this week we will learn about Ordinal Numbers.

Ordinal Number means putting numbers in order. When things are placed in order we say First, Second, Third, Fourth and so on to tell their position.

Numbers specifying position are called Ordinal Numbers.

When we count the numbers, we say One, Two, Three Four and so on. They are called Cardinal Numbers.

For example: Look at these balls

    
First Second Third Fourth Fifth

    
Sixth Seventh Eighth Ninth Tenth

How many balls are there in all? Ten

Which ball is red in colour? First

Which ball is blue in colour? Third

Children let us learn the first ten Ordinal Numbers.
