Topic: Skip Counting

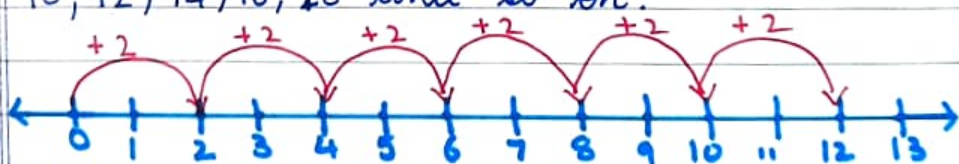

Good Morning Children

This assignment is of Class I for the subject of Mathematics dated 22nd May 2023.

Children in your previous class you have done Skip Counting or Count by tens (10's). We will revise skip counting by 10's and also learn skip counting 5's and 2's

What is Skip Counting?

In Maths, Skip Counting can be defined as the method of counting forward by numbers other than 1. To skip count we keep adding the same number each time to the previous number. Here, we are skip counting by 2 on a number line. So, starting at 0, the next number will be at $0+2=2$, then $2+2=4$, then $4+2=6$ then $6+2=8$ then 10, 12, 14, 16, 18 and so on.

We can skip count by any number. Skip counting relates counting to multiplication, it means skip counting can help us understand multiplication because it helps us count in equal groups to reach a number.

Skip Counting by 10's: It is called so,

Topic: Skip Counting

because we skip on the tenth number at regular intervals.

Skip Counting by 5's: It is so called because we skip on to the fifth number at regular intervals.

Skip Counting by 2's: It is so called because we skip on to the second number at regular intervals.

Children along the skip counting by 10's, 5's and 2's we will also learn the Tables of 10, 5, 2, 3 and so on. Tables are also like skip counting or repeated addition and these Tables are the first set of multiplication tables.

Kindly follow the pattern given below and learn the skip counting thoroughly

Monday : Skip Counting by 10's

Tuesday : Skip Counting by 5's

Wednesday : Skip Counting by 2's

Tender Heart High School, Sector 33-B, Chandigarh

Subject: MATHS

Class: I

Session – 2023-24

Date: 20.05.2024

Teachers: Mrs. Harminder Kaur, Navjyot Kaur, Jyoti

Topic: Skip Counting by 10's (Monday: 22.05.24)
