Topic: 1. Uses of Water

In this assignment we will learn about "Uses of Water".

Children, all of us need water to stay alive. plants and animals also need water. We use water for many activities like drinking, bathing, cleaning, washing, cooking, swimming, putting out fire, irrigating plants etc.

There are different sources of water :

At home, we get water from a tap and some other sources of water are : Rain, River, Lake, stream, Sea, Pond, Ocean. Rain is the main source of water.

The rainwater that seeps under the ground is called underground water. This water is taken out by means of well, handpump, tubewell.
