I Write six sentences on your favourite festival (Holi/Diwali)

II Read the following passage and answer the questions given at the end carefully.

Penguins are found in polar regions. They are the birds that cannot fly. Their wings are called flippers. The flippers help them to swim. They use their flippers to balance themselves when they walk.

Penguins eat fish. They spend most of their time in water. They lay their eggs and bring up their young ones on land. There are many different kinds of penguins. Emperor penguins are the largest in size. They can grow up to four feet! They weigh about one hundred pounds.

I Answer the following questions.

Q1. Where are penguins found?

Q2. What is the weight of a penguin?

Q3. What do penguins eat?

II Fill in the blanks
