

8/07/24

①

Jender Heart High School, Chandigarh
Class - 2

Subject - Mathematics

Teacher:- Ms Haryit Kaur, Ms Jyoti Arora, Ms Rupinder Kaur

Chapter - Subtraction

Students Let us start with the word problems.

Q1. A shopkeeper had 99 eggs. He sold 62 eggs. How many eggs are left with him?

37 eggs.

Total number of eggs = 99
Eggs sold out = 62

T	O
9	9
- 6	2
3	7

Eggs left out = 37

②

Q2. A class has 45 students. Out of these 27 students are participating in the annual day. How many are not participating?

18

students.

Total students in class = $\begin{array}{r} T\ 0 \\ 4\ 5 \end{array}$

Students participating in annual day = $\begin{array}{r} 2\ 7 \end{array}$

	T	0
	3	15
	4	5
-	2	7
	1	8

So, students are not participating = 18

Do Page 64 in class

How

Do Page 65

Q, In a bus there are 83 passengers, 25 passengers got down on a bus stop. How many passengers are remaining in the bus?

Solution No. of passengers in the bus = $\begin{array}{r} T\ 0 \\ 8\ 3 \end{array}$

Passengers who got down = 25

$$\begin{array}{r} \text{T } 0 \\ \textcircled{7} \text{ } \textcircled{13} \\ \cancel{8} \cancel{3} \\ - 25 \\ \hline 58 \end{array}$$

So, total passengers remaining in the bus = 58

Q) A class has 53 students. If 29 are boys. How many are girls?

Total number of students = 53

Number of boys = 29

$$\begin{array}{r} \text{T } 0 \\ \textcircled{4} \text{ } \textcircled{13} \\ \cancel{5} \cancel{3} \\ - 29 \\ \hline 24 \end{array}$$

So, number of girls = 24

H.W ① A balloon seller had 30 balloons. He sold 19 balloons. How many balloons are left?

② Reema had 72 stickers. Out of these 48 were the smiling face stickers. How many were not the smiling face stickers?
