details with anyone. This can prove harmful for you. Your details like - your name, phone numbers, email-ids, passwords etc. can be misused by people for their personal benefits.

3. Be Careful when making friends on Internet:- Students, while using internet facility like <sup>online</sup> chatting, you come in contact with many persons that are unknown also. So, you should be more careful while making friends on internet.

4. Practice Caution when Shopping online:- Students, All of you know that, these days online shopping facility is available on different sites. So, you should be extra careful while shopping online. You should check the validity of website before shopping, then only provide your card details or any personal details for making online payments.

\* Students, now, we are going to study the next topic - 'Responsibilities of a good Digital Citizen' - which is present on page no- 49 in your book.

CLASS-III

Subject-Computers

Teacher- Rupinder Kaur

Chapter-4 → The Internet - An Introduction

Students, As you know that the word citizen means - A native of a state or nation. In the same way, A digital citizen is a person who uses internet safely and in the right way. A responsible person using internet activities properly is considered as a good digital citizen. The following responsibilities A good digital citizen should follow, while using internet.

1. Observe Your Etiquettes when online:- Students, while using internet and doing online chatting with your friends and relatives, you should follow proper behaviours. You should not use harsh language or bad words in your chat. Like, you show your <sup>Good</sup> manners while talking with your friends in school and with parents and elders at home. Same you have to follow here while using internet.
2. Report Unlawful Activities :- Students, like in real life people use abusive remarks for anybody that is not considered as good manners. When somebody says bad words to us, we feel bad and we report about all these to our parents and elders. In the same way, if you notice any bad or illegal activity on the internet, then, you should discuss or inform your parents about

these type of activities.

\* Students, All of you may now take 3 minutes break. During break time, you have to do one activity. All of you will make a list of good manners and bad manners in your notebook. For good manners you will write at least three points that you should follow in your day-to-day life. And for Bad manners you will write at least four points that you should never follow. After writing or making the list you have to show this to your parents.

\* Children, three minutes break is over now. Let us continue with the same topic - 'Responsibilities of a Good Digital Citizen'.

3. Do not tamper with other's files and folders:- Students, If you use something of your friend without his/her permission. This is also a bad manner. You should take permission <sup>before</sup> using anything of your friend. In the same way, while using internet or Computer, people save their important data. You should not open or spoil their personal data for any reason. If you want to

use the data for copying or reading then you should take permission of that particular person.

4. Never create a fake Identity:- Students, while using internet you should not hide or create any fake identity of yourself. This is also considered as a bad manner. If you find any person with fake identity then, you should inform your parents or elders as a good digital citizen.
5. Do not Copy Information as it is from internet:- Students, while using internet, you should not copy any type of information such as text, music, video etc. Only for reading or understanding any concept you should use internet.

\* Children, Now, I am ending the lesson here.

All of you will learn all the points of the topics discussed today. Students, all of you will also try to solve the back exercise of your book present on page No. - 51 and 52 that is Question - A, B, C, D.  
Thank You...
