

TENDER HEART HIGH SCHOOL, SEC-33B, Chd.

Class: III

Subject: Mathematics

Topic: Addition

Date: 13.05.2024

Good Morning students

These are the solution of  
Ex. 2.7, Chapter - Addition from  
your Be a Maths star book  
and are being submitted to you on  
13.05.2024.

Ex. 2.7 (pg-33)

2. There were 650 packets of milk in a dairy. 297 more packets of milk were brought. How many packets of milk are there in the dairy now?

Sol

①

No. of milk packets = 650

Milk packets added = + 297

Total milk packets = 947

Ans 947 packets

3. Meera gave 1 toffee each to 125 students of class 3 and is left with 37 toffees. How many toffees did she have?

Sol

$$\begin{array}{rcl}
 \text{Toffees distributed} & = & 125 \\
 \text{Toffees left} & = & + 37 \\
 \hline
 \text{Total toffees} & = & 162
 \end{array}$$

Ans 162 toffees.

4. On Saturday, 475 men, 309 women and 787 children visited the Science Museum. How many people visited the museum in all?

Sol

$$\begin{array}{rcl}
 \text{No. of men} & = & 475 \\
 \text{No. of women} & = & 309 \\
 \text{No. of children} & = & + 787 \\
 \hline
 \text{Total people} & = & 1571
 \end{array}$$

Ans 1571 people

5. There are 121 passengers in an aeroplane. Another aeroplane has 112 passengers. How many passengers are there in both the aeroplanes?

Sol

$$\begin{array}{rcl}
 \text{Passengers in 1st aeroplane} & = & 121 \\
 \text{Passengers in 2nd plane} & = & + 112 \\
 \hline
 \text{Total passengers} & = & 233
 \end{array}$$

Ans 233 passengers

6. There were 788 pencils in a carton. 499 pencils were added. How many pencils are there in all?

Sol.

$$\begin{array}{r}
 \text{Pencils in a carton} = 788 \\
 \text{Pencils added} = + 499 \\
 \hline
 \text{Total pencils} = 1287
 \end{array}$$

Ans 1287 pencils

7. A library bought 2947 textbooks and 5050 storybooks from the World Book Fair. How many books did the library buy in all?

Sol.

$$\begin{array}{r}
 \text{No. of textbooks} = 2947 \\
 \text{No. of storybooks} = + 5050 \\
 \hline
 \text{Total books} = 7997
 \end{array}$$

Ans 7997 books.

Checkpoint

Frame story sums

1.  $250 + 300$

Story sum: On Sunday 250 men and 300 women went to see the Science Museum. How many people visited the museum in all?

$$\text{Ans } 250 + 300 = 550.$$

$$2. \quad 120 + 110 + 115$$

Story sum: A vegetable seller earned ₹ 120 on Monday, ₹ 110 on Tuesday and ₹ 115 on Wednesday. How much did he earn on these three days?

$$\text{Ans ₹ 345.}$$

$$3. \quad 360 + 285$$

Story sum: Meena has ₹ 360, her father gave her ₹ 285. Find the total money Meena has now.

Home assignment - Complete the above work in the notebook.
