

TENDER HEART HIGH SCHOOL, SEC-33 B, Chd

Class: III

Subject: Science

Topic: Birds

Date: 08.07.2024

Good Morning students

This is the notebook work of Ch-3. Birds and is being submitted to you on 08.07.2024.

Answer the following

1. Name any two birds that are

i) carnivorous - eagle , hawk

ii) Omnivorous - crow , sparrow

iii) aquatic birds - crane , swan

iv) flightless birds - Kiwi , Penguin

2. What are the special features of aquatic birds?

Ans. Special features of aquatic birds are their feathers do not rot in water due to the presence of oil glands in their skin.

3. Why can an ostrich not fly?

Ans. An ostrich cannot fly as it has heavy and solid bones. It also has more feathers on their body.

4. Why do birds make nests?

Ans. Birds build nest to lay eggs and to bring up young ones.

5. How does a tailor bird make its nest?

Ans. A tailor bird sews two or three leaves together with its beak to make a nest.

6. Which special features of birds help them fly in air?

Ans. Special features of birds that help them fly in air are :-

- i) They have a streamlined body.
- ii) Their bones are hollow, light and filled with air.
- iii) They have wings.

7. Why are the bones of flying birds hollow?

Ans. The bones of flying birds are

hollow, as hollow bones makes
the body of a bird light.

Home - assignment

Complete the above work in your notebook.
