

Good Morning Students,

Students, this lesson is for Class-4 for the subject of Computers, Topic - 'Customizing the Desktop' which is covered in chapter-2 starting on page of your text book, titled- Kips-logix.' and is being submitted to you on 6.5.24

I hope all the students are ready for today's lesson. So let us start with the topic.

* Customizing the desktop :- Students, All of you know that desktop is the first screen of the computer. you can make changes in this screen according to your choice also. Now, we will learn how to change the change the colour scheme of the computer screen. For this, we will follow some steps

And the steps are:-

1. Right click on the blank area of desktop and select Personalize option.
2. One window will appear. Now, choose - windows colour option at the bottom of the window.
3. follow these steps that I am going to explain here.
4. Select any colour. It will change the colour for window borders, start menu and task bar.
5. Select Enable transparency option. It will make windows glass borders, start menu and task bar transparent.
6. Now, set the colour intensity option to give colour strength to glass borders, start menu and task bar.
7. click on show colour mixer option to set the Hue, saturation and Brightness.

* children, All of May, Now take break, During break time, All of you will

give answers for some questions and the questions are:-

Q1-1. which option will make windows glass borders transparent?

Q1-2. what is the use of show colour mixer option?

* let me give you answers first. And the answers are:-

Ans:1. Enable Transparency option.

Ans:2. This option is used to set the Hue, Saturation and Brightness.

* Students, Now, let me continue with the same explanation of the topic.

8. Now, select Advanced appearance settings option.

9. Window colour and appearance dialog box will appear

10. Click on the arrow placed next to Item list box and choose Active title bar option.
11. Click on the color and font and change the colour and settings of font according to you.
12. Click on apply button then click on OK.
13. Click on save changes button.
14. Now, you will get a window i.e. Desktop of your choice.

* Children, Now, I am ending the lesson here. Please read and listen to the lesson carefully. And also learn the steps to customizing the Desktop.

Thank you...
