

Besides the usual sports and games played in almost all countries, a new class of sports is emerging called Adventure Sports.

Read the clues and try to identify the sports. Use the Help Box for answer.

Hang Gliding involves the technique of flying in the air with the help of a large type of kite called a hang glider.

Mountain Biking involves biking in the rough terrains of mountains. Special bikes with additional features are used for this purpose.

Snow Boarding is a winter sport and is a cross between surfing and skateboarding. It originated in the US in the 1960's.

White Water Rafting is a very popular adventure sport in India and is done on the Ganga and its tributaries. It uses a rubber raft to manoeuvre through the rapid currents.

Bungee Jumping is a dangerous sport in which the jumpers jump off a very high bridge, cliff or mountain with one end of a bungee cord tied to their legs and the other end is connected to the jump platform.

In Skiing participants slide down a snow covered mountain slope. Fastened to each shoe in a long narrow flat piece of wood, metal or plastic.

Know More

The youngest to accomplish the feat of skydiving was a four year old.
