

Jender Heart High School, Chandigarh
Class-VI Subject: Physics
Teacher: Nimrita L-6 Magnetism (Revision)
Date: 16.12.24

Q1) Fill in the blanks:-

- 1) _____ is an example of natural magnet.
- 2) A magnet always rest in _____ direction.
- 3) Magnetic poles always exist in _____.
- 4) Temporary magnet is made up of _____.

Q2) Define:-

- 1) Magnetic field
- 2) Magnetic substances
- 3) Magnetic induction.

Q3) State three differences between temporary and permanent magnet.

Q4) Answer the following:-

- 1) How are the magnets kept safely?
- 2) State uses of a magnet.
- 3) How can magnetic properties of a magnet be destroyed?
- 4) State two ways of increasing the strength of an electromagnet.
