Know More

Zombies are the 'undead bodies' that come out of their graves and terrorise the living. They have been the subject of many films, including Night of the Living Dead (1968).

The North and the South poles are two of the most difficult places on the earth to reach and so have been great challenges for explorers. There are many people who reached the poles by one means or another. Identify the following first polar explorers.

First woman to reach the South Pole.

Liv Arnesen

First woman to complete a harrowing 1126 km journey to the South Pole solo.

Capt. Preet Chandi

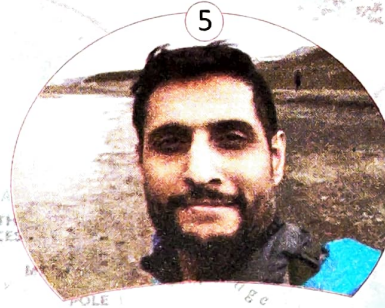

First to reach the North Pole.

Robert Edwin Peary

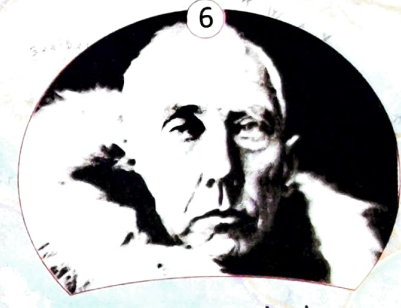

First Indian to have skied to both the North Pole and the South Pole

Ajeet Bajaj

The first Indian to traverse both the North and South poles in a year.

Raja Karthikeya

First to reach the South Pole.

Roald Amundsen

Know More
